FDMS9600S

Dual N-Channel PowerTrench[®] MOSFET Q1: 30V, 32A, 8.5m Ω Q2: 30V, 30A, 5.5m Ω

Features

Q1: N-Channel

- Max $r_{DS(on)}$ = 8.5m Ω at V_{GS} = 10V, I_D = 12A
- Max $r_{DS(on)}$ = 12.4m Ω at V_{GS} = 4.5V, I_D = 10A

Q2: N-Channel

- Max $r_{DS(on)} = 5.5 \text{m}\Omega$ at $V_{GS} = 10 \text{V}$, $I_D = 16 \text{A}$
- Max $r_{DS(on)}$ = 7.0m Ω at V_{GS} = 4.5V, I_D = 14A
- Low Qg high side MOSFET
- Low r_{DS(on)} low side MOSFET
- Thermally efficient dual Power 56 package
- Pinout optimized for simple PCB design
- RoHS Compliant

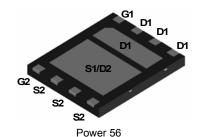

General Description

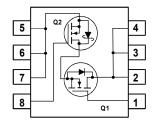

This device includes two specialized MOSFETs in a unique dual Power 56 package. It is designed to provide an optimal Synchronous Buck power stage in terms of efficiency and PCB utilization. The low switching loss "High Side" MOSFET is complemented by a Low Conduction Loss "Low Side" SyncFET.

Applications

Synchronous Buck Converter for:

- Notebook System Power
- General Purpose Point of Load

MOSFET Maximum Ratings T_A = 25°C unless otherwise noted

| Symbol | Parameter | | | Q2 | Units |
|----------------|-------------------------------------------------------------------|----------|-----|-----|-------|
| V_{DS} | Drain to Source Voltage | 30 | 30 | V | |
| V_{GS} | Gate to Source Voltage | ±20 | ±20 | V | |

FAIRCHILD SEMICONDUCTOR RESERVES THE RIGHT TO MAKE CHANGES WITHOUT FURTHER NOTICE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILITY, FUNCTION, OR DESIGN. FAIRCHILD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE APPLICATION OR USE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENT RIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPECIFICATIONS DO NOT EXPAND THE TERMS OF FAIRCHILD'S WORLDWIDE TERMS AND CONDITIONS, SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS.

LIFE SUPPORT POLICY

FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

As used herein:

- Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury of the user.
- A critical component in any component of a life support, device, or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.

ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Anti-Counterfeiting Policy. Farichild's Anti-Counterfeiting Policy is also stated on our external website, www.fairchildsemi.com, under Sales Support.

Counterfeiting of semiconductor parts is a growing problem in the industry. All manufactures of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed application, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Farichild strongly encourages customers to purchase Farichild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our web page cited above. Products customers buy either from fairchild directly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handing and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address and warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Farichild is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.

PRODUCT STATUS DEFINITIONS

| Datasheet Identification | Product Status | Definition |
|--------------------------|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advance Information | Formative / In Design | Datasheet contains the design specifications for product development. Specifications may change in any manner without notice. |
| Preliminary | First Production | Datasheet contains preliminary data; supplementary data will be published at a later date. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve design. |
| No Identification Needed | Full Production | Datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve the design. |
| Obsolete | Not In Production | Datasheet contains specifications on a product that is discontinued by Fairchild Semiconductor. The datasheet is for reference information only. |
